Allan Karl - Keynote Speaker

Programs

The Beginning at the End of the Road

Allan's most requested and popular presentation. This is not the end. This is just a new beginning. Inspires people to see possibilities instead of obstacles. How to confront fear, take chances and accept challenge to succeed and achieve goals. The rewards reaped through relationship building and connecting with people, regardless of race, religion or culture. All powerful messages told within the context of stories involving extraordinary circumstances with ordinary people delivered through dramatic storytelling choreographed to awe-inspiring and stunning photography, animations and video.

Making Connections

Open doors and break down barriers by connecting with people. In a journey that spans 3 years covers 62,000 miles through 35 countries across 5 continents alone on a motorcycle, Allan shows that connecting with humanity and getting to know and trusting people is the best recipe for success. That's how he tackled virtually every physical, emotional or technical obstacle that stood in his way of his success. Valuable lessons show how the simple and precious gift of human connection will help anyone succeed, realize their dreams and get what they want. A fast-paced program delivered with stunning visuals and dynamic storytelling.

Navigating the Road to Success When It's Filled with Potholes & Pitfalls

Imagine potholes bigger than an elephant. Dusty roads with no water. Riding through monsoons. Playing toreador with taxis and pedestrians in the craziest cities in the world. This is the hardest, most dangerous and challenging journey you'll ever experience. There are no maps. No GPS waypoints. No signs. No fuel. No water. And the only people you encounter speak a distant dialectic of a long-lost language. Sounds like some days at the office or in the field? Allan shares the wacky, weird, unbelievable, scary and often seemingly impossible situations he encountered and how creativity, innovation and communication got him through.

The View Is Better from Here

With remarkable photography, real-world video and thought-provoking tales from the road, Allan shows how vision, setting one's sights on clear, attainable goals and changing one's perspective can make virtually any problem diminish. Through real-world stories with real people from places most wouldn't dare set foot, Allan's lessons show how patience and a good dose of perspective can turn a bad or seemingly impossible situation into one that is fun, entertaining and educational.
